

How to prepare NEET – NCERT Text Book

NEET (National Eligibility Cum Entrance Test - UG) Preparation is a two years program and is not two months task. But yes the last two months revision is very important though the aspirant has prepared from the beginning. Questions are how to prepare for NEET and how to do revision. Which books to follow, is coaching a must or which study material may be helpful? These questions make aspirants confused. Revision may differ for different students based on their initial preparation of the course. Though NEET preparation style may also differ we are highlighting some steps here which may be suitable to most of the aspirants of NEET.

1. **Follow NCERT Text Book** –Biology is the important subject to crack the NEET. But do complete full course for Physics & Chemistry also. Follow the NCERT book first. The first preference should be NCERT text book. All questions & examples of NCERT books should be solved by the scholar. Notes should be made from NCERT text book for quick revision. Target should be to go through these NCERT Books 3 times; also refer your notes.
2. **Assess Yourself** – Keep on assessing yourself to check your progress on preparation. For this no need to wait for school test for which you may have to wait for 3 months and again the examination pattern are different. Online **NEET Mock Test** may be helpful. Many web sites or mobile app like **OurSelfStudy** has feature of **Mock Test for NEET**. Aspirant can take these **NEET Mock Tests** and can find out preparation status. This will help on revision strategy and to find where to focus more.
3. **Additional study material only after NCERT Text Book** – One may refer additional referral books or study materials for preparation. There is no shortcut to improve the rank. In case you are comfortable based on your standard from practice mock tests and assessments then additional study materials may be helpful otherwise focus on NCERT Text Book. All important points of NCERT Text Book should be on finger tips. There are **NEET online test series** also available which can be used as an add-on tool for preparation this will be very helpful during revision time.

Though preparation style may be different but based on previous question patterns no need to jump for many referral books without mastering NCERT Text books.
